

PRATIK NANDA

Data Analyst — AI Automation & Data Engineering
pratik.nanda99@gmail.com — 7396776437 — LinkedIn — GitHub — Portfolio

PROFESSIONAL SUMMARY

Results-driven Technology Analyst with over 4.5 years of experience at Infosys. Specialized in transforming operational ITSM data into actionable business intelligence and building agentic AI automation workflows. Proven expertise in architecting Power BI dashboards, developing custom automation tools (Chrome Extensions, Excel VBA), and leading cross-functional teams for high-stakes data validation projects with 100% accuracy. Actively evolving into the AI and Data Engineering space with deep technical training in RAG, LangChain, and Agentic workflows.

CORE COMPETENCIES & AI EXPERTISE

- **Agentic AI & Automation:** CrewAI, LangChain (Python), n8n, Make (formerly Integromat), AI Employees, Smart Real-time Voice Agents, MCP (Model Context Protocol).
- **Generative AI & RAG:** Retrieval-Augmented Generation (RAG) for customer support, AI-powered web development (Cursor AI).
- **Data Analysis & BI:** Power BI (DAX, Modeling), Advanced Excel (VBA, Macros, Pivot Tables), SQL (CTEs, Window Functions), Python (Pandas, EDA).
- **ITSM & Operations:** ServiceNow, Wolken, ITIL Framework, Incident/Change/Service Request Management.
- **Leadership:** Team Mentorship (8+ members), Stakeholder Coordination, Runbook Creation, Process Audit Optimization.

PROFESSIONAL EXPERIENCE

Infosys <i>Technology Analyst (Data Analyst formerly Process Audit & Delivery)</i>	Hyderabad, India <i>April 2025 – Present</i>
--	--

- **Reporting Automation:** Architected 10+ Power BI dashboards using DAX to track SLA performance and ticket trends, enhancing management review efficiency for global stakeholders.
- **Tool Migration:** Quickly adapted to the Wolken ticketing tool, becoming the primary POC for report generation, distribution, and ticket data analysis.
- **Workflow Optimization:** Implemented Excel scripts and macros to clean and analyze raw CSV data, reducing manual reporting overhead by 60%.
- **AI Implementation:** Developed a custom Chrome extension with Copilot assistance to map 150+ business services, saving significant manual lookup time for support teams.

<i>Senior Systems Engineer</i>	<i>October 2023 – April 2025</i>
--------------------------------	----------------------------------

- **Project Leadership:** Led a team of 8 in a large-scale client data validation project, delivering 100% accuracy and receiving the unit-level INSTA Rise Award.
- **Process Governance:** Designed standardized audit templates and compliance frameworks to evaluate quality across incident and service request lifecycles.
- **Strategic Liaison:** Acted as a bridge between technical teams and stakeholders, conducting bi-weekly status calls and maintaining project documentation in SharePoint.
- **Mentorship:** Provided queries resolution and training for new team members on auditing tools and advanced Excel reporting.

<i>Systems Engineer</i>	<i>January 2022 – October 2023</i>
-------------------------	------------------------------------

- **Quality Auditing:** Performed detailed audits of ServiceNow tickets for the Broadcom project, validating timelines, work notes, and field accuracy.
- **Compliance Optimization:** Utilized Excel-based audit templates to track quality metrics and identify operational improvement areas.

- **Core Training:** Completed intensive training in IMS Windows stream, gaining foundational skills in Java, SQL, and Windows Administration.

TECHNICAL PROJECTS & AI APPLICATIONS

- **Claude Code Ecosystem:** Developed a suite of productivity tools including an *Artifact Locator*, a *Lookup Tool*, and a *Prompt Vault* to streamline AI-driven coding workflows.
- **AI Portfolio Website:** Built and deployed a personal portfolio website using AI-powered development tools (Cursor AI).
- **Alert Runbook Migration:** Spearheaded the creation of runbooks for 4,000+ alerts during a client platform migration, ensuring automated alert handling and zero downtime.
- **E-commerce Analytics Platform:** Built a scalable STAR schema model and delivered a Power BI dashboard uncovering revenue and retention insights using Python and SQL.
- **Customer Risk Analytics:** Analyzed 3,900+ records using Python (EDA) and predictive modeling to deliver dashboards with actionable risk insights.

SPECIALIZED AI TRAINING

- **Agentic AI Mastery:** Agentic AI with CrewAI and LangChain (Python).
- **Automation Architect:** Workflow automation with Make and n8n; Building Custom AI Employees.
- **AI Interface Design:** Smart real-time voice agents and MCP (Model Context Protocol).
- **Advanced RAG:** Customer support agent development using RAG and LangChain.

ACHIEVEMENTS & CERTIFICATIONS

- **INSTA Rise Award (Infosys):** Recognized for analytics, leadership, and process transformation impact.
- **Microsoft Certified:** Azure Data Fundamentals (DP-900).
- **EF SET English Certificate:** 63/100 (C1 Advanced).
- **Full Stack Development:** Advanced Certificate Program completion.

EDUCATION

Bachelor of Technology in Electronics & Communication Engineering

2017 – 2021

Vignana Bharathi Institute of Technology, Hyderabad, India
